Hernán J. Condorí

❖ Personal information

Full Name: Hernán José Condorí Age: 26
Birthdate: 04/03/1993 Marital Status: Single
Phone: (011) 15 6504 5279
Address: 573 Diego Valdez Street, Merlo.
E-mail: hjcondori04@gmail.com
GitHub: https://github.com/HernanGH
LinkedIn: https://www.linkedin.com/in/hernan-condori

❖ Professional Goal

My main objective is to integrate a great development team that achieves the goals and objectives of the company. I want to find a work environment in which personal achievements and performance are recognized, as well as allowing opportunities for personal and professional development are given.

❖ Qualifications

I consider myself proactive, responsible, disciplined, a person very passionate about the code, good practices and teamwork.

I have the agility to learn or acquire new knowledge and technologies in addition to adapting to different kinds of work demands.

❖ Education

Escuela de Educación Secundaria Técnica (E.E.S.T.) N° 06

- Tecnicatura Personal y Profesional en Informática. 2006 – 2010

Universidad Nacional de La Matanza (UNLaM)

- Ingeniería en Informática. 2012 - 2018

Note: In the education section, degree and institution names were written in Spanish for avoiding an inaccurate translation.

❖ Professional experience

Grava Digital (2016 – 2018)

At my first stage in the company, i worked in the development and deployment of web projects in PHP, implementing MVC with Bootpstrap3, Codeigniter and Mysql.

Later, I went on to develop web applications based on MEAN Stack (MongoDB – Express – AngularJs - NodeJs). In this last stage I also participated in the development of systems in which we implemented MERN Stack (MongoDB – Express – React - NodeJs).

Transversally I work in small services in Python for the recognition of images (OpenCv - Bottle).

Novatech (2018 - Today)

My second experience begin with the develop mobile apps with react-native implementing native-base for the UI. Then i worked in several web applications with react and Ant Design, moreover the backend was development in Nodejs with postgreSQL.
