Facundo Pezzola

Computer Engineer – National University of La Matanza

Ramos Mejía, Buenos Aires, Argentina.
DNI: 38.851.027
Nationality: Argentinian
Marital status: Single
Birth date: 03/30/1995
Age: 24
Contact Number : 1157186587
E-mail: facupezzola@gmail.com
LinkedIn: https://www.linkedin.com/in/facundo-pezzola-b90886b9/

Throughout my whole career I performed tasks of all phases related to the software development life cycle. Starting with the requirements analysis, design and development of the solution, implementation in productive environment and maintenance with continuous improvement.

I worked with different software development methodologies. From Agiles, such as Scrum and XP, to traditional methodologies.

EXPERIENCE

FullStack Developer

Redmond Software
September 2017 - present

Design and development of high traffic applications for Telecommunication companies.
Support and maintenance of systems in productive environments. Deployment and monitoring of applications.
Use of SQL database (Oracle), NoSQL (Redis) and queues (RabbitMQ).
