DDM Dial Database Marketing

system administrator

November 2005 - November 2008 (3 years 1 month)

All the infrastructure was in-house with 20+ servers and I was the only resource in charge of the servers and network. I performed migrations of PDCs in windows to Linux samba, built a MySQL cluster, created a backup structure with tape drives, migrated all the telemarketers workstations to a customized Debian with a restricted environment, regarding to networking added vlans, DMZ, load balancing for two isp and vpn, etc

Education

Coderhouse

Full Stack course · (2016 - 2016)

EXIN your ICT competence partner

ITIL® Foundation Certificate · (2015 - 2015)
