Roger Anthony Hernández García

"I'm an analitical person who's able to face new challenges, that is why I constantly set goals and look forward to achieve them, I emphasize in determining factors to meet my goals and improve the way to solve problems that may arise.

I like to interactuate with people from all the levels. In the same way, I like to learn, work and come up with contribute ideas that could be capable of achieving the goals and objectives that have been proposed."
