SRE - DevOps Engineer - Cloud Engineer en Hipcam Global

Extracto

With an orientation for achieving efficient, fast and accurate solutions, I'm an IT professional whose first priority is to do my best. My strengths include being highly analytical, a self-learner and passionate about technology.

Highly team-oriented, possessing an optimistic attitude and a natural technical leader, my continuous goal is to excel and grow professionally in the IT field, looking to master every aspect of System Administration; always eager to learn new things and encouraging others to do the same.

Specialties:Linux, AIX and Solaris.
