Experience

Globant / Product Owner
SEPTEMBER 2018 - PRESENT

As Product Owner working in Globant for Ernst & Young team, my main focus was the hardening and stabilization of cloud platform for E&Y worldwide Services :

• Define Backlog and Product RoadMap.

• Test product to ensure compliance of the delivered functionality and system integrity. Perform functional sign-off.

• Ensure production integrity by validating and prioritizing reported problems
• Review change requests
• Elaborate functional specifications
• Deliver test plans and test scenarios
• Analyze business requirements submitted by Subject Matter Expert (SME)
• Size specification and testing phases
• Provide information to the SME as necessary for the elaboration of business cases and RFP responses
• Propose test design and automation for new business requirements
• Carry out the functional walk-through of the product with the Development team and SME team
• Interface with customer during functional specification, testing

and initial implementation phases as necessary

Tools used: Azure DevOps, JIRA, Confluence, Trello, Ansible, Powershell.

APG Consulting / Functional Analyst

SEPTEMBER 2015 - SEPTEMBER 2018

Working as a functional analyst for the product team, my main challenge was implementing a billing solution on several countries (Argentina, Colombia, Ecuador, Peru, Bolivia, Costa Rica) .

- Defining user stories.
- Stakeholders management.
- Taking part of user testing sessions.
- Backlog management: defining new features, prioritizing bug fixing and improvements.
- Facilitating team's scrum ceremonies.

Tools used: Azure, Azure DevOps, Trello, Netsuite, SAP.

Our Clients: IBM, Bayer, Accenture, Kuehne & Nagel , Hoyts, Nestle, Avon.

Education

Digital House / Digital Product Management

2017-2017

Universidad de Buenos Aires / Sociology degree

2012-2015

Unfinished.
