Javier Avrudsky

Argentina

Mobile Engineer at Split

Extracto

I have 15 years' experience in development, having worked for the last 10 years using technologies for mobile devices, mainly Android and iOS platforms.
I have also taken part in some projects involving web technologies, such as simple websites and RESTful web services.
I am currently searching for a position to work remotely. I have already worked using this modality with companies in the USA, Canada, Spain, Malaysia, Peru and Brazil. Besides, I have worked temporarily in their offices.
