IGNACIO LEITAO

Location: Tandil < Buenos Aires < Argentina

Phone Number: +54 (249) 154526645

Email: ignacio.leitao@gmail.com

Birth Date: 28/10/1986

personal information

Ignacio Leitao
Male
Argentine born in La Plata on October 28, 1986 (33 years old)
Married

summary

Software engineer with eight years of experience focused on building user interfaces for web and mobile applications. As a frontend developer I pay attention to the visual details, coding best practices and applications response. I am interested in working using frontend design patterns, responsive design and user-experience.
Currently working on a hybrid app with React Native, Context, Emotion, hooks and Git, I've been work with other main web technologies such as React, Redux, Enzyme under Jest, Axios-Request, SASS or Angular, under the agile methodologies using scrum as the main one.
Other technologies that I have worked with are Javascript, HTML5, CSS3, KnockoutJS, Backbone, Foundation, Bootstrap and jQuery.

experience

React/React Native engineer, Making Sense

Tandil, Argentina - June 2019 - Current

Frontend development on 3 projects and counting, mostly for web using React and Redux-Saga and Angular, but also hybrid development with React Native, Context, hooks and emotion for mobile.
