Education:

Computer Science
2019 – present
University of the People
California, United States

Computer Science
2016 – 2018
Buenos Aires University
Capital Federal, Argentina

Notes:

- I spend a lot of time taking courses, reading technical books, and working on side-projects.
- I am planning on starting a master's degree right after finishing my bachelor's. Data science, machine learning, or pure statistics are the fields I'm considering.
