About Me

Software Developer, particularly interested in web applications / Front-End development.

My goal is to make flawless, beautiful, easy to use software :)

Skills

JavaScript | HTML
Java | CSS
git | SASS
Angular | HTTP
TypeScript | Webpack
NodeJS | MongoDB

Refactoring | Design Patterns
Software Architecture | UX

Languages

🇪🇸 **Spanish** (Native)
🇬🇧 **English** (Full Professional)
🇫🇷 **French** (Elementary)

👩‍💻 Experience

LEAD FULL-STACK DEVELOPER (2016-Now)
Wellbin (EHR startup from Argentina)

Built (team of 2) admin app (Angular + NodeJS + collaborated on UX with a designer) // Helped re-architect core app to address multi-tenancy and performance issues (Java + ES + docker on AWS) // Re-wrote REST API for existing NodeJS app (consistent HTTP verbs, paths for resources and actions) // Re-structured existing AngularJS app and established best practices for FE team (component modularity, documentation, code reviews, tooling).

SENIOR FRONT-END ENGINEER (2012-2016)
Medallia

Worked with a designer on unifying design, purpose and functionality for each UI component being built across different FE teams // Built the FE (AngularJS) for a "form builder" app // Helped maintain legacy app (jQuery + HTML + CSS)

SOFTWARE DEVELOPER (2008-2012)
Oracle (via acquisition of BEA)

Took on the challenge of building great UI in the corporate world.

INSTRUCTOR (2005-2008)
Universidad Austral, Buenos Aires

I taught Programming Languages at the university.
Some of the languages/paradigms presented to students were: Scheme (LISP) , Haskell, C#, Python, Ruby, Eiffel, AOP

SOFTWARE ENGINEER (2006-2008)
BEA (via acquisition of Fuego Inc.)

JUNIOR SOFTWARE ENGINEER (2005-2006)
Fuego Inc.

🎓 Education

Engineer, Computer Science (2002-2007)
Universidad Austral, Buenos Aires
